Sustainable Water Management

Policy Reforms, Market Creation and Technology Innovation

November 1-2, 2018

FICCI Federation House, Tansen Marg, New Delhi

www.indiaindustrywaterconclave.com

INTRODUCTION

At present the Indian economy is struggling with excessive population and changing water resource conditions, making it a tremendous challenge for the authorities to bridge the gap between growing water demand and supply in an affordable way. Water Demand in the country is projected to very soon overtake the availability of water, this uncertainty can greatly be addressed by optimal management of our water resources and effective functioning of the water utilities. In this scenario, addressing water scarcity, enhancing water efficiency and increasing water productivity go hand-in-hand.

The theme this year focuses on policy reforms in water, technology innovation and dissemination, and creating market for wastewater. The conclave aims at highlighting the need to develop circular economy approach for sustainable water management, harnessing the interdependencies between water use of different sectors and risk mitigation issues for the water sector. It will also underline new adaptive strategies and business models to promote sustainable water and wastewater management.

CONCLAVE SESSION THEMES 2018

Plenary Session 1: Policy Reforms Towards Sustainable Water Management

India has been identified as one of the most water-stressed countries with the growing imperative to manage water resources efficiently. Without a complete paradigm shift in the way water is managed in the country, India's overall growth process will be jeopardized. This necessitates radical policy reforms to bring about a change in governance, institutional framework, public private partnership framework and the way water is priced and used. The session will bring out perspectives on these aspects and how water sector should be treated as a sector of strategic importance.

Plenary Session 2: Exploring Long-term Sustainability of Water Intensive Sectors: Best Practices and Success Stories

Leading companies are recognising the need to address water use efficiency not just from a compliance perspective but also from the perspective of long term sustainability. Several best practises and success stories in water use efficiency are showing the path to innovation and continuous improvement from business as usual scenario that are worth emulating within the same sector or across sectors. This session will present such top ranking initiatives by companies that are industry leaders in the water space.

Plenary Session 3: Technology Innovation: Accelerating Adoption and Dissemination

There is an increasing pressure on water resources in India due to unprecedented and competing demand for water among agriculture, industry, urban and other uses. Various technologies and innovations have been developed over the years for promoting sustainable water management among different stakeholders to create favorable linkage mechanisms to provide more options, interventions and expertise. The session will focus on how best practices and robust business models can be scaled up and mainstreamed for enabling technology dissemination. It will also deliberate upon the enablers required for involvement of end-users in the development of the technologies, providing heightened probability of appropriateness and, therefore, adoption.

Plenary Session 4: Urban Wastewater Management: An imperative for State Governments

Scarce and poor quality of municipal water is one of the most pressing problem in India. To meet the wide spectrum of challenges in the sector,

the re is a need for the public and private sector to work together to explore and identify innovative business models that can lead to efficient management of water and wastewater. Many Municipal Corporation's in the country have undertaken sustainable initiatives for efficient management of urban wastewater and have also created benchmark over the years. The session will explore possible collaboration for private sector participation through innovative PPP models. It will also dwell on how these successful business models can be scaled and replicated in other cities.

Plenary Session 5: Water and Sustainable Sanitation beyond ODF

Lack of access to safe water, adequate sanitation, growth in population are some of the greatest risks to economic progress and sustainable development. Corporates and the private sector at large can play an important role by transforming water and sanitation as an integrated business opportunity by establishing partnerships with NGOs, government, development partners, social enterprises and start-ups working in these sectors in both urban and rural areas. The session will facilitate a dialogue on how industry players can bring in expertise in the areas of sanitation technology, infrastructure, O&M and other components to create a robust market place for water and sanitation. This session will also touch upon the gender aspect by discussion on the impact of safe sanitation practices on Menstrual Health Management.

Plenary Session 6: Connecting the Drops – Understanding Business Risks and Opportunities

Water is fundamental to all businesses and needs to be managed well. Water scarcity and water stress issues can have impact on business continuity. The session will highlight business perspectives on water related risks and opportunities and their experiences in building water risk resilience strategies for the long term.

INDIA INDUSTRY WATER CONCLAVE

The Conclave provides a platform to showcase best practices, deliberate on policy issues and highlight sustainable water management practices.

The Conclave focuses on the aspects of water conservation, management and sustainability:

- Challenges that corporates face in addressing the water issues
- What role Indian industry sees for itself in the emerging scenario
- Enablers that will help address these challenges
- Opportunities that they can harness by aligning their business in a sustainability paradigm

The conclave brings together diverse stakeholders including the corporate sector, government, academia, non-governmental organizations and financial institutions on a common platform for water conservation and management.

FICCI WATER AWARDS

The FICCI Water Awards were launched to promote awareness, policy advocacy, sharing of best practices and thought leadership in the area of water use efficiency. The awards were initiated with objective to:

- Recognize efforts and leadership in the area of water efficiency and conservation; and
- Develop a knowledge base on sustainable water management practices adopted by different stakeholders and disseminate best practices for encouraging their adoption.

AWARD CATEGORIES

Following award categories were proposed for the 6th Edition of the FICCI Water Awards:

- 1 → Industrial Water Use Efficiency
- 2 → Community Initiatives by Industry
- 3 → Innovation in Water Technology
- 4 → Initiatives by NGOs
- 5 → Urban Wastewater Management

TARGET AUDIENCE

- Industry/ Industry Associations
- Central and State Government Ministries, Departments and Agencies
- Municipal Corporations and Other Urban Local Bodies
- Bilateral/Multilateral Organizations
- Financial Institutions/Banks
- Research Institutes
- Technology Providers
- Non-Governmental Organizations
- Academia
- Media

WATER CONCLAVE AND AWARDS REMINISCENCE

Release of Compendium of Best Practices

Honouring the Chair of the Jury, FICCI Water Awards

3rd Edition of India Industry Water Conclave

Launch of Knowledge Series during the FICCI Water Awards

Networking at the India Industry Water Conclave

Inaugural Session of the India Industry Water Conclave and FICCI Water Awards

Winners of 5th Edition of the FICCI Water Awards

FICCI WATER MISSION

Access to safe water is one of the essential elements for sustainable development and poverty reduction. However, the past few decades has seen an increase in demand amongst various water using sectors putting enormous stress on the natural resource.

FICCI constituted a 'Water Mission' to promote and provide thought leadership in the area of water efficiency. It aims to facilitate the sharing and dissemination of best practices across industry sectors in order to encourage corporate and industry players to imbibe a culture of water conservation within their organizations.

The Mission is working to create awareness on the existing situation pertaining to water scarcity, quality and generate a discourse on sustainable use of water amongst various users. With growing and extensive depletion and pollution of our water resources, our current work is being restructured to bring this issue back in focus to provide a sense of urgency to the debate of water management.

The objectives of the Mission's work are:

- To formulate suggestions for changes in policy framework in India for better water resource allocation, conservation and management;
- To document and disseminate best practices across various sectors and create a forum to facilitate exchange of information and experiences in the country;
- To promote good practises in sustainable water management and innovative technologies of water saving and management through workshops, conferences and training programmes.

6th Edition of FICCI
WATER AWARDS

Sustainable Water Management
Policy Reforms, Market Creation and Technology Innovation

November 1-2, 2018 | FICCI Federation House, Tansen Marg, New Delhi

DELEGATE REGISTRATION FORM

Registration Fee	Indian Delegates	FICCI Corporate Members (25% Discount)	FICCI Associate Members (10% Discount)	Educational Institutions (50%Discount)
Discounted rates for Registration on or before 20 October 2018	INR 5,000	INR 3,750	INR 4,500	INR 2,500
Rates for Registration after 20 October 2018	INR 5,500	INR 4,125	INR 4,950	INR 2,750

*Rates are inclusive of GST

Please note that registration fee once paid is non-refundable, however, change of delegate is allowed. The registration fee includes Conclave kit, lunch and refreshments, and excludes boarding, lodging and transport.

The following person(s) from our organization would be participating in India Industry Water Conclave:

SN	Name (IN BLOCK LETTER)	Designation	Email Id	Mobile No

COMPANY INFORMATION

Name of Organisation

Address

City State Country

Postal Code Telephone Fax

Email Website

FICCI Membership Number (for those registering as FICCI Member)

Do you have GST No.? Yes No

if yes, GST No.

What is Organizations Core Activity?

Please tick the Category to which your organization belongs:

- Industry (Sector)
- R&D
- Bilateral/ Multilateral
- Government
- Consulting Company
- Others (Please Specify)
- NGO
- Financial Institution

PAYMENT OPTIONS

<p>DD/ Cheque drawn in favour of "FICCI" payable at New Delhi</p> <p>Kindly write "FICCI Water Mission", name and organization name & contact details (preferred mobile no.) at the back of the cheque /DD and send us along with the registration form to Ms Anju Choudhary at FICCI, Federation House, Tansen Marg, New Delhi-110001</p> <p>Cheque/DD No. Dated drawn on (Bank Name) Amount (in words and figures)</p>	<p>Wire Transfer</p> <p>Beneficiary Name & Address: FICCI, Federation House, Tansen Marg, New Delhi-110001</p> <p>Beneficiary Bank Name: Yes Bank Limited</p> <p>Beneficiary Saving bank A/c No.: 013694600000041</p> <p>IFSC/NEFT/RTGS Code: YESB0000136</p> <p>MICR CODE: 110532031</p> <p>Transfer date Bank Name Branch UTR No. Amount (in words and figures)</p>
