8th Edition of India Industry Water Conclave and 10th Edition of FICCI Water Awards

Sustainable Water Management: Overcoming Water Stress by Water Reclamation and Reuse

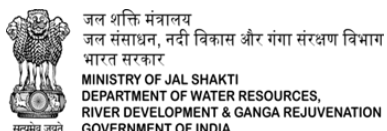

23rd November 2022, Wednesday

AGENDA MATRIX

The theme for this year Conclave is ‘**Sustainable Water Management: Overcoming Water Stress by Water Reclamation and Reuse**’. With increasing water scarcity, efficient management of water is critical for industry, agriculture, and municipalities. Building future resilience in view of this looming scarcity depends largely on a strong impetus for water reclamation and reuse and focusing on the circular economy of water. The Conclave will focus on the need for water reclamation and reuse among the three end users of agriculture, industry and municipality. The emphasis will be on role of technology, management practices and bringing sustainable solutions around wastewater reclamation, treatment and reuse where the Government and industry can develop strategies to harness the scope for use of treated wastewater.
